

INFOLET:

Infolets in Oracle Fusion Applications are small, interactive data visualizations or snapshots that provide real-time insights into key business metrics. They are part of the user interface in Oracle Fusion's dashboards or work areas, designed to give users quick access to important information without having to navigate through multiple pages or reports. E.g. OF infolet:

ADDING INFOLET IN OUR INSTANCE:

CREATE ROLE FIRST:

TOOLS>SECURITY CONSOLE> CREATE ROLE

Create Role - Security Console - X

→ C https://ucf5-zeop-fa-ext.oraclecloud.com/hcmUI/faces/FndOverview?_af=14714555
